### REASONS FOR ALLOWANCE

1. Claims 36 and 38-48 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a transfective active-matrix liquid crystal display device comprising a combination of various elements as claimed, more specifically, a transparent electrode formed on the passivation layer and a reflective electrode formed on the transparent electrode, the reflective electrode having a double-layered structure.

Chung ('797) and Katsuya ('310) disclose a liquid crystal display device comprising a multilayered structure reflector. However, Chung and Katsuya fail to disclose 'a transfective active-matrix liquid crystal display device comprising a combination of various elements as claimed, more specifically, a transparent electrode formed on the passivation layer and a reflective electrode formed on the transparent electrode, the reflective electrode having a double-layered structure'.

Applicant has a certified translation in English of the priority Korean Patent Applications filed 01/11/00, and thus Applicant has perfected a priority date of 01/11/00.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
